Lecture Videos

Each week will have lecture videos in which Dr. Mahometa will introduce and explain the week's topic. Each video will be embedded in its own unit on the horizontal navigation bar. For example, Week 1 has two instructional videos. Therefore there are two unit components on the horizontal navigation bar under the **Lecture Videos** section.

Comprehension Checks

Each lecture video is followed by questions to test your comprehension of the presented material and the assigned reading(s).

Please **scroll down** to the end of the page to ensure that you have answered all of the questions.

Help

EdX offers interactive online classes and MOOCs from the world's best universities. Online courses from MITx, HarvardX, BerkeleyX, UTx and many other universities. Topics include biology, business, chemistry, computer science, economics, finance, electronics, engineering, food and nutrition, history, humanities, law, literature, math, medicine, music, philosophy, physics, science, statistics and more. EdX is a non-profit online initiative created by founding partners Harvard and MIT.
