Discussion Board

Getting Started

We are using a tool called Piazza for our discussions. If you have never used Piazza before, you will need to enter your name and email address the first time you access the Discussion Board.

Goal of Board

The Discussion Board is designed to be self-sustaining and require little, if any, input from Dr. Mahometa and the Foundations of Data Analysis team. Please answer each other's questions and discuss course concepts with each other. Though a team member will review posts to sort out any technical problems students may experience, please rely on each other for assistance in answering content related questions.

EdX offers interactive online classes and MOOCs from the world's best universities. Online courses from MITx, HarvardX, BerkeleyX, UTx and many other universities. Topics include biology, business, chemistry, computer science, economics, finance, electronics, engineering, food and nutrition, history, humanities, law, literature, math, medicine, music, philosophy, physics, science, statistics and more. EdX is a non-profit online initiative created by founding partners Harvard and MIT.
