Foundations of Data Analysis

Dear Students:

Happy Holidays! The University of Texas at Austin will be closed from Monday, December 22, 2014 through Friday, January 2, 2015 for winter break. Course staff will not be active on the discussion board until we return on **Monday, January 5, 2015**. Additionally no new content will be released during this time.

Please continue to be respectful and patient with each other and with course staff on Piazza. We will not be answering questions or addressing any technical errors during until our return on Monday, January 5.

Changes to Week 8

Because of our extended absence, we have decided to delay the release of Week 8. Content for Week 8 will now be released at **12:00 CST (18:00 UTC)** on **Tuesday, January 13, 2015**. This change will affect the end date of the course as well as all due dates for the course.

The course will now conclude on **Tuesday, February 10, 2015 at 12:00 CST (18:00 UTC)**, which is one week after the release of Week 11 - our final week. All due dates have been altered to reflect the new end date of the course (Tuesday, February 10, 2015). This means that in order to receive a final grade and a Verified Certificate or Honor Certificate, all graded assessments need to be submitted by this time.

We'll see you all online in the new year!

Sincerely,

**Dr. Mahometa and
the Foundations of Data Analysis team**
