Reflect on the Question ✓   Analyze the Data ✓   Draw Conclusions

Primary Research Question

How long do animals stay in the shelter before they are adopted?

(7/7 points)

Write Your Conclusion

Answer the question and support your answer with statistics:

On average, animals spent fewer than two [weeks]   weeks   in the shelter before being adopted ([median]   median
= 13 days, IQR = 30 days). The length of time was highly skewed to the [right]   right   , however. The longest period of time
an animal was in the shelter was [211]   211   days before being adopted. This animal was a 2-year-old [dog]   dog   that
entered the shelter injured. The middle 50% of the distribution were adopted between [8]   8   and [38]   38   days.
