Readings

Please read the following chapter:

> Chapter 12: Hypothesis Testing

The readings supplement the instructional videos. Questions specific to the readings will be found in Comprehension Checks, Pre-Labs, and Labs.

*Note that there is an important error on page 11 (page 257 of textbook), in which the "**critical regions**" are defined as the "areas under the distribtuion curve representing values that support the null hypothesis." In fact, these areas represent values which would lead us to reject the null hypothesis.*

READING CHECK (1/1 point)

Did you complete the reading assignment?

○ Yes ✔

○ No
